reddot winner 2020

Irix products have consistently proven that excellent optics can go hand-in-hand with good design, and awards such as *Red Dot* and *iF Design* have proven just that. The Irix Cine product line has shown that cinematography products can also combine excellent ergonomics, attractive design, and superior optical properties at an attractive price.

This is why we're thrilled to announce that the Irix Cine line has won the **Red Dot 2020 award!**
